Any person who violates this section shall be barred from all State-operated areas for one calendar year following the date of discovery of the violation by the department.

(5) Any person who violates regulations governing drawing procedures for hunting opportunities on State-operated areas, other than reservation drawings described in subsection 551(j), shall not be issued a permit for that day, or shall be ejected for that day if a permit has been issued, and shall be denied entry for the remainder of the season.

(i) Daily Entry Permit Revocations, Refusals, and Ejections: On Type A and Type B areas the department is authorized to refuse to issue a one-day entry permit to anyone and to revoke this permit and eject the holder forthwith from the area for disorderly conduct, intoxication, or for any other reason when it appears that the general safety or welfare of the area, or persons thereon, is endangered. Decision of the ~~Department~~ department employee assigned management or enforcement responsibilities for the area in such respect shall be final. Any person whose entry permit has been revoked shall not be entitled to hunt or access any State operated hunt area or on any wildlife area for one calendar year from the date of discovery. Persons affected by this section may appeal such actions to the ~~Commission~~ commission.

Applicants shall purchase either a \$1.05 application card or a \$6.00 application card and submit it to the Department's License and Revenue Branch at the address indicated on the application. Applicants may also apply for every available Saturday, Sunday, and/or Wednesday hunt date for one or more areas by completing a season-long application card and returning it with the appropriate payment to the License and Revenue Branch. Applications must be received in the License and Revenue Branch office at least 17 days prior to the authorized shoot date on which the applicant wishes to hunt. Late, incomplete, or incorrect applications will not be included in the drawing.~~

(2) Reservations shall be issued by random drawing. The department shall make applications available to the public through license agents and department offices. Two-day nonresident hunting licenses shall not be used to apply for reservation drawings. To be included in a reservation drawing, applications must be received by the department at the address specified on the application at least 17 days prior to the hunt date. Late, incomplete, or

(B) The department may eliminate from any drawing all applications not in compliance with these regulations. Persons who submit more than one application for the same shoot date for the same area may be barred from hunting on State-operated areas for a period of one year following the date of discovery of the violation by the department. Any reservation issued to any person as a result of such improper submission, or to any person already barred from the State-operated areas, shall be void and of no force and effect.

(4) Priorities: Unless otherwise stated on the reservation or on information mailed with the reservation, upon paying the appropriate fee for a one-day entry permit or presenting a two-day pass or season pass, successful applicants shall be granted a one-day entry permit during the waterfowl or pheasant season, a one-day permit shall be granted, however, only if the applicant's reservation was issued by the department in the applicant's name and is for the area requested. Applicants must enter, at the appropriate checking station on the assigned or stated hunt date. Unless otherwise provided for, the reservation will expire one and one-half hours before waterfowl shoot time. For some areas, reservations will be numbered by the department in the order in which they are drawn. These reservations will be accepted at checking stations in that order, only if the reservation holder is present at the time the number is called.

(5) Except as provided for in subsections 551(j)(6) or 551(q), or Section 552, a reservation shall assure entry for up to six persons. No more than two may be adult (see subsection 551(h)(2)) hunters who have valid resident or nonresident licenses and no more than two may be persons 16 or 17 years of age in possession of a valid resident or nonresident hunting license (see subsection 551(h)(2)). Each adult may be accompanied by up to two hunters holding junior licenses or two non-shooters irrespective of age, or one of each. Non-shooters are defined as persons who wish to accompany a permittee in the field or remain at a designated parking space. Non-shooters shall not discharge or possess ammunition or a firearm on the area.

(6) If hunting a special blind area, a reservation will assure entry of no more persons (adult hunters, junior hunters, and/or nonshooters) than will fill the blind.

(7) Unless otherwise provided for in this section, the advance reservation system only serves to assure entry onto the area and does not necessarily constitute a method for prioritization over other users.

(k) Deferred Openings: When the department considers such deferment desirable to protect agricultural crops from waterfowl, it is hereby authorized and directed to defer opening to public access any area until in the opinion of the ~~Department~~ department the danger of crop damage in the immediate region is abated.

(l) Species Allowed:

(1) On Type A and Type B areas, only ducks, geese, coots, moorhens, and snipe which are then in season may be legally taken by permittees on designated shooting days during the open waterfowl hunting season; unless otherwise provided under this section or Section 552 of these regulations.

(n) Posting Closed Areas: Any portion of any State wildlife area and any adjoining lands under control of the ~~Department~~ department, may be closed to hunting or public access by the ~~Department~~ department by posting such lands with signs at least five (5) to the mile.

(o) Penalties: Failure to comply with regulations contained in sections 550, 551, or 552 may result in any or all of the following:

(1) denial of permission to enter a State-operated area; and/or

(2) revocation of any permit already issued; and/or

(3) ejection from the area for one calendar year from the date of discovery; and/or

(4) citation under the provisions of the Fish and Game Code or Title 14 of the California Code of Regulations. A proceeding under (1), (2), (3) or (4) will not preclude the invocation of any other remedy.

(a) Definition and Scope: A Private Lands Wildlife Habitat Enhancement and Management Area, (Herein after referred to as a Private Wildlife Management Area) is an area of private lands for which the landowner or their designee has completed and implemented a wildlife habitat enhancement and management plan that actively encourages the propagation, conservation and wise use of the fish and wildlife populations on their land. - |     |                       |                           |

The application fee covers the initial five-year license period. A fee shall be submitted, based on the size of the area, with the license renewal application at the beginning of each subsequent five year period. This license shall be in place of any other license that may be required of private landowners by the Fish and Game Code or regulations made pursuant thereto. This section shall not, however, be construed to exempt anyone from any requirement pertaining to hunting and sport fishing licenses and stamps.

The department will screen each application for compliance with these regulations. Applications that do not provide the information required, will be rejected and returned to the applicant. 2. Draw-By-Choice Drawings. Tags are awarded according to an applicant's hunt choice and computer-generated random number (lowest to highest), without consideration of accumulated points.

(C) Except as otherwise provided, applicants unsuccessful in receiving a tag for premium deer (based on first choice selection), bighorn sheep, elk or pronghorn antelope hunts shall earn one (1) preference point for use in future Big Game Drawings.

(D) To earn and accumulate a point for any species, a person must comply with all application requirements for that species as specified in subsections 708(a), (b), (c) and (d), including the following conditions:

1. Applicants must be at least 12 years of age on or before July 1 of the license year for which they are applying (16 years of age for bighorn sheep applications).

2. Applicants must possess a California hunting license valid for the hunting season requested (applicants for junior deer hunts must possess a junior hunting license). Applicants must provide evidence of such license at the time of application.

3. Applicants for elk and pronghorn antelope hunts must be California residents.

4. Applications for bighorn sheep, pronghorn antelope and elk hunts must include the appropriate nonrefundable processing fees.

5. Applications must be received by the department's License and Revenue Branch by 5:00 p.m. on the first business day after June 1.

6. Except for junior deer hunt applicants, applicants shall not submit more than one drawing application for each species during the same license year.

(E) No applicant shall earn more than one (1) preference point per species, per drawing, for use in future drawings. Preference points are accumulated by species and shall not be transferred to another species or another person. Preference points are not zone or hunt specific.

(F) Except as otherwise provided, successful applicants receiving tags for their first choice premium deer, bighorn sheep, elk or pronghorn antelope hunts shall lose all preference points for that species.

(G) For party applications, the department shall use the average preference point value of all party members (total preference points for the party divided by number of party members) as the basis for consideration in the drawing for that species. Point averages shall not be rounded.

(H) Except as otherwise provided, persons who do not wish to apply for an antelope, elk, bighorn sheep or premium deer tags may earn one (1) preference point for any or all of these species, by submitting the appropriate application(s), as specified in subsections 708 (a), (b), (c) and (d), and writing the point code number for that species, as defined by the department, in the hunt choice box (first choice only for deer). Persons applying for a preference point in this manner shall be subject to the same application requirements as regular drawing applicants as specified in subsection 708(g)(1)(D).

(I) The department shall maintain records of preference points earned by individual applicants based on the hunter identification number provided on each application (driver's license number, Department of Motor Vehicles identification number, or hunter identification number assigned by the department). Applicants shall notify the department's License and Revenue Branch, at 3211 S Street, Sacramento, CA 95816, in writing, of any changes or corrections regarding name, mailing address date of birth or hunter identification number.

(J) Persons not applying for premium deer, bighorn sheep, elk, or pronghorn antelope hunts through the department's Big Game Drawings for five (5) consecutive years shall have their preference points for that species reduced to zero (0). For the purposes of this subsection, persons whose applications are disqualified from drawing shall be considered the same as persons not applying. Applying for preference points as described in (H) above, will keep an applicant's file active.

(2) Premium Deer Hunts

(A) Except for junior deer hunt applicants, as specified in subsection 708(a)(2)(E), persons must use a first-deer tag application to apply for premium deer hunts through the department's Big Game Drawing.

(B) License tags for premium deer hunts (except junior deer hunts) shall be awarded based on the following:

1. Ninety percent (90%) of the individual zone or hunt tag quota shall be awarded using a Preference Point drawing. Tag quota splits resulting in decimal fractions of a tag shall be rounded to the next higher whole number.

2. Ten percent (10%) of the individual zone or hunt tag quota shall be awarded using a Draw-By-Choice drawing. Tag quota splits resulting in decimal fractions of a tag shall be rounded to the next lower whole number.

3. For zones or hunts with quotas less than ten (10) tags, one (1) tag shall be awarded using a Draw-By-Choice drawing. Remaining tags shall be awarded using a Preference Point drawing.

4. Tags awarded to applicants for second or third choice zones or hunts shall be through a Draw-By-Choice drawing and shall not result in loss of accumulated points.

(C) License tags for junior deer hunts (J Hunts) as described in subsection 360(c) shall be awarded based on the following:

1. Fifty percent (50%) of the hunt tag quota shall be awarded through a Preference Point drawing. Tag quota splits resulting in decimal fractions of a tag shall be rounded to the next higher whole number.

2. Fifty percent (50%) of the hunt tag quota shall be awarded through a Draw-By-Choice drawing. Tag quota splits resulting in decimal fractions of a tag shall be rounded to the next lower whole number.

(D) A junior hunter applying for premium deer hunts (X zones, Area-specific archery hunts, and additional hunts) on a first-deer tag application and a second-deer tag application shall:

1. Receive a point only if he/she is unsuccessful in the big game drawing with his/her first choice on both applications.

2. Lose all preference points for deer if he/she receives his/her first choice on either application.

(3) Bighorn Sheep Hunts

(A) Successful bighorn sheep tag applicants shall be determined as follows, based on tag quotas for each hunt.

4. For quotas of four or more, seventy-five percent (75%) of the quota shall be awarded using a Preference Point drawing. Any resulting fractional tag shall be rounded to the next higher whole number. The remaining portion of the quota shall be awarded using a Draw-By-Choice drawing.

(B) Alternates shall be selected for each hunt using a Preference Point Drawing.

4. For quotas of four or more, seventy-five percent (75%) of the quota shall be awarded using a Preference Point drawing. Any resulting fractional tag shall be rounded to the next higher whole number. The remaining portion of the quota shall be awarded using a Draw-By-Choice drawing.

5. Party applications shall be split as described in Section 708(d)(3) to fill the last tag available through the Preference Point drawing. Party applications shall not be split to fill the last tag available through the Draw-By-Choice drawing.

(B) Alternates shall be selected for each hunt or hunt period using a Preference Point drawing.

(5) Pronghorn Antelope Hunts

(A) Successful pronghorn antelope tag applicants shall be determined as follows, based on tag quotas for each hunt or hunt period.

2. For quotas of two, one tag shall be awarded using a Preference Point drawing, and one tag shall be awarded using a Draw-By-Choice drawing.
